K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10-year/Million Mile Limited Warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open the hood and locate the cabin filter housing on the passenger side of the firewall. **(Fig. 1)**
2. Remove cabin air filter cover by grasping the tab **(Fig. 1)** and sliding the cover upward.
3. Remove old cabin filter. **(Fig. 2)**
4. Install K&N cabin filter with K&N logo and VF8004 part number facing up. **(Fig. 3)**
5. Once filter is installed, reverse the steps to complete the cabin air filter installation.
6. Clean an area on the housing and apply the K&N Stop Decal to notify others that this is a washable, reusable cabin filter.
