

# INSTALLATION INSTRUCTIONS

Part Number 33-2545

**This filter fits:** See current catalog for complete listing

**\*FREE K&N DECAL** To register your warranty, please see us online at [knfilters.com/register](http://knfilters.com/register). **FREE K&N DECAL\***

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modifications will be required. However the following procedure **MUST** be followed to ensure a proper fit and seal of the K&N Filtercharger®.

## INSTALLATION

- 1) Remove the stock filter from the airbox (see repair manual).
- 2) Gently place the oiled K&N filter into airbox.  
**NOTE:** This filter will fit into the airbox with either side facing up. When it comes time to service the filter, make sure that it is positioned in the same way as before.
- 3) Once the filter is seated into the airbox base, apply grease to the sealing surface of the filter (see fig. below).  
**NOTE:** Be sure to apply the sealing grease completely around the filter's surface.

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**

---

Apply sealing grease completely around the surface of the filter.
