

Installation Instructions

Part Number: PL-8007

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Air Filter seals properly.

INSTALLATION:

1. Remove the stock air filter.
 2. Carefully clean inside the air box where the air filter sits.
 3. Install the provided retaining ring onto the flange of the K&N Air Filter (Figs. 1 & 2)
 4. Install the provided Drycharger wrap onto the K&N Air Filter. (Fig. 3)
- Note: For optimum protection, the K&N Drycharger should be used.**
5. Apply a thin layer of the provided K&N Sealing Grease on the inside of the flange. (Fig. 4)
 6. Install the K&N Air Filter into the air box making sure it is completely seated.
 7. Reinstall the air box lid.

Product Available Separately

Replacement Drycharger; part number PL-8007DK

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
