K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10-year/Million Mile Limited Warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Locate the glove box on the passenger side of the vehicle Fig. 1
2. From underneath of the glove box, locate and remove glove box stop strap and unfasten Fig. 2
3. With glove box stop strap unfastened, apply pressure to the sides of the glove box pushing into the center and lower glove box compartment. Fig. 3
4. Locate and remove cabin filter housing cover to access cabin air filter. Fig. 4 & 5
5. Remove dirty cabin air filter. Clean any dirt or debris that might be present. Fig. 6 & 7.
6. Install K&N® Cabin Air filter into cabin filter housing with K&N® logo facing outwards. Fig. 8 & 9
7. Reverse steps 1-4 to complete the installation. With the cabin filter installed, clean an area on the cabin housing and apply the K&N® Stop Decal. The decal will help notify others that this is a re-usable cabin filter.
