K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10-year/Million Mile Limited Warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open the glove box compartment and locate the fasteners on the inside of the glove box. (Fig. 1 & 2)
2. Rotate fasteners (2) 90 degrees and remove fasteners to release the glove box compartment. (Fig. 2 & 3)
3. Locate the Cabin filter housing in the back of the glove box compartment and remove the cabin filter housing cover by squeezing on both tabs, pulling the cover towards you. (Fig. 4-6)
4. Remove the dirty cabin air filter. (Fig. 7 & 8)

NOTE: remove any dirt and debris that may be present in the cabin filter housing.

5. Install the K&N® Cabin Filter. (Fig. 9)
6. Reverse steps 1-4 to complete installation.
7. With the K&N® cabin filter installed, clean an area on the housing and apply the K&N® Stop Decal.
The decal will help notify others that this is a reusable cabin filter.
